

Wel of geen PMD?

In de PMD-zak mogen uitsluitend verpakkingen van levensmiddelen. Gebruiksvoorwerpen en andere soorten afval, zoals restafval, glas, oud ijzer en elektronische apparaten mogen NIET bij het PMD-afval.

How to separate plastic waste

In our municipals Goeree-Overflakkee and Hoeksche Waard we use special plastic garbage bags to separate plastics, aluminum and carton waste. These bags may only be used to separate packages (foods, drinks, etc.) The special garbage bags are available at different supermarkets within our municipals. Your calendar can be found on www.radbv.nl/afvalkalender (type in your postal code and house number)

✓ Allowed

1. Plastic bags, bottles (non-refundable/statiegeld), cups, food trays (such as microwavable meals) packaging of chewing gums, medicines, etc.
2. Aluminum cans, foils, cups, containers used for foods and drinks such as sodas, beers, soups, hotdogs, petfood, etc.
3. Carton packages used for water, yogurts, wine, milk, soup, etc.

X Not allowed

1. Industrial and agricultural foils
2. Industrial and agricultural jerrycans
3. Full packages (such as food trays, cans, bottles, etc.)
4. Chemical and medicinal waste (needles, batteries, etc.)
5. Polystyrenes
6. Utensils made of plastics, metals (aluminum), etc.
